INFOCENTER

CREATIVE SPACE

BERLIN TXL is one of the largest and most ambitious urban development projects in Europe. With the Urban Tech Republic as a research and industrial park for urban technologies, the Schumacher Quartier as a socio-ecological residential district and the natural environment of the Tegel urban heathland, an area measuring 500 ha is set to become Berlin's answer to the urgent questions needed for a smart, liveable, sustainable city of the future.

Within sight of the former tower: the Infocenter Berlin TXL. Here the transformation of the former Tegel Airport into Berlin TXL is presented. Here visionary thinkers find a place to share knowledge and engage in discussion and networking.

The Multispace encompasses over 230 m² of indoor space plus a 230 m² terrace. The open

floor plan facilitates a wide range of uses including as an exhibition and event platform, a networking venue, or a meeting and creative space for up to 199 people. Equipped with a modern design and smart technology, the state-of-the-art venue offers top-quality appeal and flexibility for individually tailored formats.

Showcase your agenda using the media repertoire of our Berlin TXL digital exhibition, with stage and conference technology. From catering to technical support, service personnel to guides for a tour of the former airfield – we support you with the successful realisation of your event.

When will you be joining us?

We look forward to hearing from you!

Your Infocenter Berlin TXL team
